TSK 187246 HTTP Request

Node-RED interface showing a flow configuration and an HTTP request node.

**Flow 1:** A flow configuration is visible, including a `Temperature Mode` node, a `Lighton` node, a `Lightoff` node, and an `[get] /sensor` node.

**Edit http in node:** The configuration for the HTTP node is shown:

- Method:** GET
- URL:** /sensor
- Name:** Name

**debug:** The debug console shows a series of messages from the `iot-2type/Microcontroller_Device_14d00002/evt/demo/fmt/json` node, indicating the payload is a number. The messages are timestamped 06/11/2022, 01:41:21 and 06/11/2022, 01:41:22.
